

Use this job aid to add, update and remove social network visibility from your profile.

Add and View Your Social Networks

1. Navigate to the search bar and type **Social Networks**. Select **My Social Networks**.

From your **Actions** button, click **Personal Data > Social Networks**.

2. Click **Add Social Network Account** to add a new one or **Edit** to change an existing network.

NOTE: LinkedIn is currently the social network available for configuration.

3. Select the social network, then enter the username or web address you want to add. You can only add one account for each social network.
4. Click **OK** and **Done**.

Delete a Social Network

1. Navigate to the search bar and type **Social Networks**. Select **My Social Networks**.

2. Click **Delete** next to the appropriate network.
3. Click **Submit** and **Done**.
