

HCM Create a Job Requisition

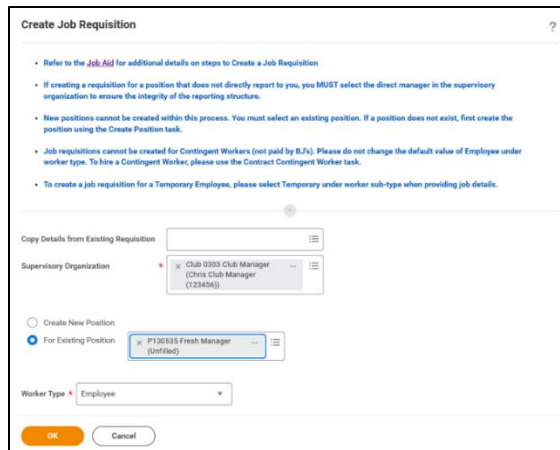

Use this job aid to open a Job Requisition for an existing available position. A requisition is needed to recruit candidates for the position. If you do not have an existing available position, view the Create Position job aid for more information.

Create Job Requisition

1. Navigate to the search bar > type **Create Job Requisition**.
2. Select **Create Job Requisition** from the tasks.
3. This will open the **Create Job Requisition** page. Your name will be listed as the **Supervisory Organization**. Update to the direct manager if the position does not directly report to you.

4. Choose **For Existing Position**, then choose a position that is unfilled. If you select **Create New Position**, you will receive an error message and will not be able to move forward.

The 'Create Job Requisition' form. It has a title bar with a question mark icon. Below the title are several bullet points providing instructions. There are two radio buttons: 'Create New Position' (unselected) and 'For Existing Position' (selected). Under 'For Existing Position', a dropdown menu shows 'P130535 Fresh Manager (Unfilled)'. There is also a 'Supervisory Organization' field with a dropdown showing 'Club 0903 Club Manager (23456)'. At the bottom, there is a 'Worker Type' dropdown set to 'Employee' and 'OK' and 'Cancel' buttons.

5. Choose a **Worker Type** of Employee to continue. Creating requisitions for contingent workers is not allowed.

Click **OK**. This will move to the Recruiting section of the Create Job Requisition page. The fields will be pre-populated with information from the position.

NOTE: A red asterisk * indicates the field must be completed.

In the top right corner, a **Help Available** message appears. Click **Show Me** to display question mark icons next to selected fields throughout the process. Clicking the question mark displays additional instruction/guidance for that field.

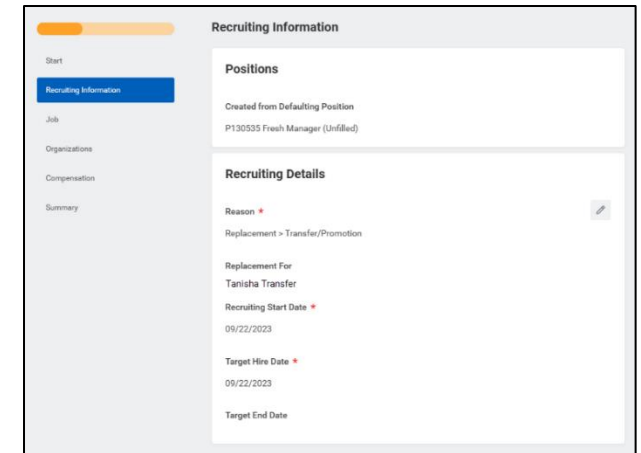

6. Choose the appropriate **Reason**.
 - a. **Addition** for newly created positions that have not been filled previously.
 - b. **Replacement** for positions that were filled previously.

7. The **Recruiting Start Date** will default to today's date. Adjust as needed.

8. The **Target Hire Date** should also be today's date.

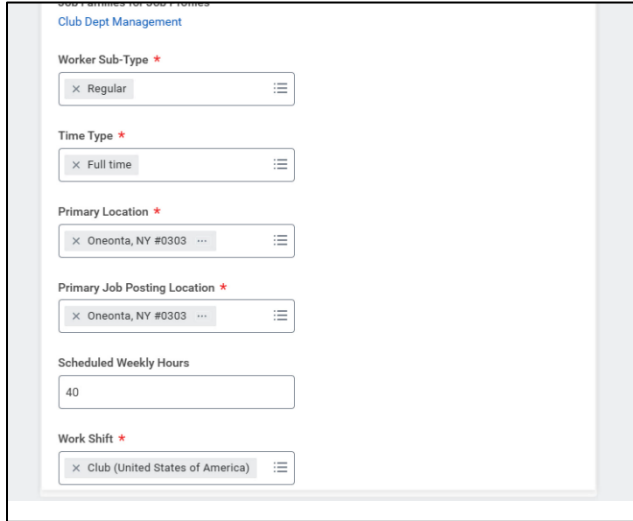

Leave the **Target End Date** blank.

9. Click the **Next** button to continue to the Job section.

The 'Recruiting Information' section of the form. It has a sidebar with 'Start', 'Recruiting Information' (selected), 'Job', 'Organizations', 'Compensation', and 'Summary'. The main content area shows 'Positions' with 'Created from Defaulting Position' and 'P130535 Fresh Manager (Unfilled)'. Below that is 'Recruiting Details' with 'Reason' set to 'Replacement > Transfer/Promotion', 'Replacement For' set to 'Tanisha Transfer', 'Recruiting Start Date' set to '09/22/2023', 'Target Hire Date' set to '09/22/2023', and 'Target End Date' blank.

HCM Create a Job Requisition

- The **Job Profile** will auto-populate, and this cannot be changed. The **Job Posting Title** is what will display on the Career site. This should match the Job Profile name.
